

On The Road to Success with CabCard

Increasing revenue and encouraging repeat business is a top priority for fleet operators and independent drivers all over the UK and feedback from current drivers already using the CabCard system tells us that one way to achieve this is to be flexible and offer passengers a convenient way to pay for their fare using their credit or debit card.

Taking Card Payments is the Way to Go

CabCard Services provide a UK bank accredited card payment platform developed as a full service solution for the licensed taxi industry. Everything necessary is provided so fleet and independent drivers can take card payments via MasterCard, Visa, Maestro and American Express using the latest chip & PIN technology. Unlike other services in the market, with CabCard, the PCI compliant system is immediately available without the need to obtain merchant accounts.

CabCard are delighted to welcome on board Abbey Taxis who operate 2 fleets out of Bath and Chippenham.

Already they have been able to attract new business from passengers wishing to exclusively use taxis operators that accept payment by card from corporate travellers,

tourists, students, hotel guests and city visitors alike.

Abbey want to provide passengers with a convenient way to pay for their journeys and at the same time find a service that would take care of all the administration involved including processing card payments and settling 100% of drivers fares and tips directly to their bank account on a weekly basis.

Martin Smith, Operations Manager, commented: "we recognised that most people prefer to pay for fares using their card and our drivers have commented that the system is easy to use and is a quick and convenient method of payment for the customer. We are delighted to be able to offer our passengers this service when they are booking their journeys with us."

Whether your fleet is large or small or you are an independent driver, your customers will appreciate a safe, secure and convenient way to pay for their fares by card and at the same time you or your firm can benefit from a revenue share scheme which is derived on a recurring basis from every card transaction.
